The Rehabilitation Center has a rich history of “family” on the board of governors, with the staff members and with our patients.

The RCCA Board of Governors includes several instances of multi-generation family support. One example is the Wiley Reynolds family. The current property was donated by the Reynolds family in the 1940’s. Mrs. Reynolds Sr. was president 1944-1957. Wiley Jr. and his wife Janet served on the board and their son, Wiley III, was president 1994-1997.

We were saddened to learn that we lost a member of our Rehabilitation Center family when Wiley Reynolds Jr. passed away on November 29, 2005. We are grateful that the tradition of serving the center has passed from one generation to the next.

The collegial feeling of the RCCA staff can be sensed by all who enter the building. Their devotion was even more evident during the recent hurricane recoveries. They loyally responded to the facility and to their patients in spite of facing hardships with their homes and families.

The RCCA patients often comment on how comfortable they feel at the center. They are treated with kindness and dignity while they receive quality personal therapy. We have treated successive generations in families including my own. My father, husband, and grandson all received therapy here.

Our preschool serves the families of students with our therapy programs. Five years ago, twins Kaiya and Dane Black were born prematurely. Kaiya initially had the most serious problems but is now doing well in all areas. Dane receives physical, occupational and speech therapy due to cerebral palsy. Preschool Director Leslie Kelly reports that Dane’s confidence improves every day and all hope the twins can enter a regular kindergarten together this fall.

Thanks to our generous donors, over 1,000 children and adults received therapy last year. Thank YOU for being a part of our family at the Rehabilitation Center for Children and Adults.
